1.2 Photovoltaic Specifications shall be in accordance with any BYD’s relevant specification documents.

1.3 With respect to the power stated for each Photovoltaic, this is determined according to following measurement conditions:

(1) a radiation of 1000 W/m²; and

(2) spectral distribution at 1.5 AM (Atmospheric Mass); and

(3) cell temperature of 25°C.

2. LIMITED WARRANTY

2.1 Limited Warranty of Material and Workmanship

2.1.1 BYD warrants that the Photovoltaic, including modules, related direct current connector and cable ("Products"), will be free from defects in material and workmanship under normal conditions of use, installation, and maintenance, within a period of one hundred and forty-four (144) months upon delivery from the factory of BYD.

2.1.2 In the event that any Product is found to be defective in material or workmanship during aforesaid period, BYD will, at its discretion, repair, replace such Product, or refund the then current market price of such Product of receiving claims from customer.

2.1.3 In the event that BYD elects to repair or replace such Product, BYD will assume all insurance and transportation fees, customs clearance and any other fees or costs for returning the defective Product to BYD and shipping the repaired or replaced Product to customer. Notwithstanding the foregoing, the cost and expenses for their removal, installation or reinstallation shall be borne by customer. In the event of any replace, BYD shall be entitled to deliver another type of Product or any portion of it with difference in size, form, color or output, in the event that the type of the reclaimed Product or parts is no longer produced at the time of claim.

2.2 Limited Warranty of Output Power

The output power of the Limited Warranty is based on the report of output power of flash test (Photovoltaic Simulator Test) from BYD, of which the power measurement deviation is within $\pm 3\%$ (Tolerance Rate). BYD shall be liable for the Products which the deviation of the output power exceeds the Tolerance Rate. In the event of following Article 2.2.1-2.2.2, BYD will, at its sole option, either (1) provide additional Products to make up for such loss in power (according to the proportion of service time); or (2) replace the defective Products; or (3) refund customer the cost of the balance between the actual output power and 95% of minimum output power as specified as of the delivery date in BYD's product flash test report, based on the current market sale price of purchasing such Products at the time of receiving claims from customers.

- 2.2.1 Within a period of one (1) year from the date of delivery, the module output will be at least 97.5% of the rated power output specified in the applicable product data sheet as of the date of original sale by BYD.
 - 2.2.2 During the next twenty-four (24) years, the module power output will degrade no more than 0.73% per year of the rated power output specified in the applicable product data sheet as of the date of original sale by BYD. Therefore, at the end of the guarantee period, the guaranteed module power output will be at least 80% of the rated power output specified in the applicable product data sheet as of the data of original sale by BYD.
- 2.3 The remedies set forth in this Article 2 shall be the sole and exclusive remedies provided under the "Limited Warranty of Output Power".

3. WARRANTY EXCLUSION AND LIMITATION

- 3.1 In any event, all warranty claims must be received within the applicable warranty period for this Warranty to be effective.
- 3.2 The warranty does not apply to any Product which has been subjected to:
 - 3.2.1 Misuse, abuse, neglect or accident;
